

Diabetes & Obesity Management

Tuesday, November 17, 2009
Workshop Goal

This program will highlight obesity and the multidisciplinary team approach to managing bariatric surgery in the diabetes population, including the unique nutritional management post surgery and in understanding the impact of gut hormones on diabetes and obesity.

Workshop objectives

1. Identify resources to prevent obesity and the risk of diabetes
2. Describe the types of bariatric surgery
3. Understand the impact of dietary changes on diabetes
4. Understand the impact of gut hormones on diabetes and obesity.

The Conference Center at Sheppard Pratt
6501 N. Charles Street
Baltimore, MD 21285-6815
