

Director of Case Management Methodist University Hospital

Desir Group Executive Search is pleased to announce that Methodist University Hospital of Memphis, TN has initiated a search for a Director of Case Management.

The Organization

Methodist University Hospital is the largest, most comprehensive hospital in the Methodist Healthcare system. It is a 693-bed facility located in the heart of Memphis Tennessee. Some features of the hospital include:

Neuroscience Institute

At the Neuroscience Institute, specialized programs are designed to bring advanced treatment, state-of-the-art technology, and world class specialists together in a patient-centered, compassionate environment. The institute includes cutting-edge services such as minimally invasive surgery for spine, Gamma Knife surgery for brain tumors, Image Guided surgery, PET Imaging and Neuro Critical Care.

daVinci Robot

The da Vinci-S, a minimally-invasive surgical system, provides surgeons with enhanced features including an interactive video display, lower profile arms and greater mobility. Using a high-powered camera, the surgeon guides the robot's four arms - that hold surgical tools which are inserted into the patient through small, keyhole-sized incisions.

Transplant Institute

Nationally recognized for its success with kidney, liver, kidney-pancreas and pancreas transplants, Methodist University Hospital Transplant Institute has been a leader in the field for more than 30 years.

The Position

The Director of Case Management (DCM) is responsible for the daily activities of the Case Managers, members of the Care Planning Team and the clerical staff; comprised of approximately 50 FTE's. The DCM manages the operations, policies, procedures and programs designed to promote and maintain optimal quality patient care in an effective cost efficient manner.

A Bachelor's degree in Nursing or a BS in healthcare related field is a minimum requirement. Current RN license in the state of Tennessee or eligibility for Tennessee state licensure is also required for nursing candidates. Additionally, eight (8) years of multidisciplinary clinical experience including three (3) years of case management.
