

Session C: "Back to Basics - A Review of Applicable Statutory and COMAR Provisions Governing Medical Case Management" Cynthia Miraglia, JD - Workers Compensation Commissioner -Maryland

Presentation Abstract

Six components of medical case management will be highlighted: assessment, planning, implementation, evaluation, written reporting and communication. The six components will be addressed using statutory mandates and "real world" constraint.

Objectives

1. Familiarize and review statutory requirements for Nurse Case Managers as contained in the Labor and Employment Article and COMAR.
2. Understand the six components of Nurse Case Management.
3. Discuss specific application of the six components in the current economic climate.
