PARK at the Holiday Inn across the street; venue located by the Ballston Metro

REGISTRATION AND CONTINUING EDUCATION INFORMATION:

**Presenter: Kathy Fraser MSN, MHA, RN-BC, CCM, CRRN; Executive
Director, CMSA**

Session Information:

Deaths from prescription opioid painkillers have reached epidemic levels in the past decade. Opioid analgesics are now responsible for more deaths than the number of deaths from suicide, motor vehicle crashes, cocaine and heroin overdoses combined. In 2011, the escalating use of therapeutic opioids showed hydrocodone topped all prescriptions with 136.7 million prescriptions; and all narcotic analgesics exceeded 238 million prescriptions. Improving the way prescription painkillers are prescribed can reduce the number of people who misuse, abuse or overdose from these powerful drugs, while making sure patients have access to safe, effective treatment.

Objectives:

1. The attendee will understand the statistical data of opioid abuse.
2. The attendee will be able to describe the issues impacting Opioid usages and misuse.
3. The attendee will be aware of the challenges of opioid usage and Workers Compensation.
4. The attendee will understand State regulations for opioids.

REGISTRATION AND CONTINUING EDUCATION INFORMATION:

This program offers the following CE's:

1.0 RN hrs. *CMSA has been approved by the California board of Registered Nursing.*
1.0 CCM hrs. *Pre-approved by the Commission for Case Manager Certification for 1 CE contact hour.*
